

Gumball Guesstimation Graph

1. Find crayon that match the gumball colors in your bag.
2. Guess how many gumballs of each color you have without actually counting. Show your guess by coloring in the circles. For example:

If you guess you might have 5 blue gumballs use the blue crayon to color 5 circles.

A grid of 30 empty circles arranged in 5 columns and 6 rows, intended for coloring to represent gumballs.
