

Stop Runaway Runoff! Build a Rain Garden

**Thursday, Feb. 18 • 7:00 - 8:30 p.m.
Carmack Community Room**

**Central Resource Library
9875 W. 87th St., Overland Park**

Dig in and save the earth! According to the EPA, 55% of stormwater run-off in urban areas drains to streams and then into nearby rivers, carrying dirt, debris and pollutants with it. Even a small rain garden traps this water and filters it effectively. Add beauty to your yard and sustainability to your community! Learn more about the benefits of rain gardens, and how to design and build your own. Refreshments will be provided. Registration required. To register, please call (913) 495-2497, visit us online at www.jocolibrary.org/issues or e-mail jclref@jocolibrary.org.
